Second Year student and aspiring computer scientist with a solid foundation in Python and Java, currently pursuing a Computer Science and Economics degree awaiting to further complete my studies in the States. Passionate about implementing business operations within the field of computer science, helping businesses implement technologies. I also actively learn new languages on Codecademy and experiment with new projects using new codes.

Campus Activities

President of the SAE Student Council • School of American Education Sunway

Jan/2023 - June/2024

- **Recovered RM3200+ from RM3000 debt** by launching successful fundraisers and community bonding activities, and managing Sunway University booth rentals.

- **Generated RM1600+ profit on a RM300 budget** by orchestrating a highly successful Halloweek fundraiser using limited recycled materials.

- **Established and coached the first ADTP football team**, increasing ADTP's presence and leading them to a 3rd place finish in the Sunway Sports Carnival against all courses.

- **Celebrated high-achieving and transferring students,** elevating the program's prestige by orchestrating each semester's ADTP Award Ceremony.

- **Provided key networking opportunities and essential transfer and application information** for North America by facilitating an interactive session with UBS alumni.

- **Enabled collaboration with key partners such as EDU USA, CETDEM, TOEFL, and IELTS** for the 4th of July event by executing promotional activities, managing event logistics, and leading the marketing team as the event chairperson.

Rotaract Community Service Director • Rotaract Club of Sunway University

June 2023 - June 2024

- **Volunteered as the mascot for the MS Walk 2023 and 2024**, driving crowd engagement, and led pre-event setup and post-event clearance, boosting team morale.

- **Secured external education and tutoring for underprivileged children** from an orphanage by spearheading a 3 month-long EduRact Project that provides biweekly tutoring with a team of volunteers with a fundraiser trip to Aquaria.

- **Drove RM1200+ in ticket and merchandise sales** for the Rotary Club of Bandar Sunway's Installation Night, fueling fundraising efforts for people in need.

- **Enhanced Rotaract's impact on Sunway University** by actively supporting biweekly meetings and driving various event initiatives.

Programming Projects • Personal

Present

- **Engineered a functional website portfolio** using HTML, CSS, and JavaScript to showcase my future projects.

- **Developed a Snake game, ordering systems, and result management systems** using Java, streamlining automation processes.

- **Created an efficient receipt sorting system** with Python to classify and organize transaction data seamlessly.

•**Built a mini Scrabble game and a bank account simulation** that calculates balances and automates data into a spreadsheet.

Reselling Businesses • bthe_my and tecomy

Dec 2016 - Present

•**Scaled a RM50 business to RM50,000+ profit starting at age 11**, without capital, a bank account, or transportation and being in a boarding school, by venturing into the streetwear and luxury reselling market and building a brand presence on Facebook Marketplace, private forums, Instagram, and Carousell.

•**Expanded a tech resale business from RM1000 to RM15,000+ profit**, specializing in reselling computers and tech products.
